

## Energy Management System (EnMS) Policy

MYS strives to use energy in the most efficient, cost-effective, and environmentally responsible manner possible.

Under this policy energy management will play a key role in support of our plan to maximise efficiency and performance, strengthen our competitive position, and provide participants with the highest quality sport facility.

Our efforts to reduce energy use will also support our commitment to our employees, the environment, and the communities in which we are a part.

MYS will work towards continuously improving energy performance. We will establish specific implementation plans every year, and commit to make significant achievements each year.

MYS's objectives under this policy are the following:

- Maximize energy performance, reduce operating expenses and increase shareholder value by actively and responsibly managing energy consumption.
- Demonstrate commitment to our community and leadership in our industry, by reducing environmental impacts associated with energy uses.

To achieve these objectives MYS has committed to:

- Compliance with all energy management laws, regulations and Codes of Practice in existing operations, upgrades and new developments.
- Operating practices that seek to minimize impacts through works and management practices, continual improvement, training and the use of more economic technology.
- Improve employee awareness and encouraging the sharing of experiences and expertise.
- Management review of energy objectives and targets.
- Purchase of energy-efficient products and services, and design for energy performance.
- Continual Improvement.
- Communication of this policy to all interested parties.
- Consultation within MYS, within the supply chain and with other relevant bodies, community groups and neighbors about energy management matters of common concern.

This policy shall apply to all MYS's facilities, departments, employees, and contractors in service to sport business.
